Art Unit: 1796

1. The amendment of 10/1/07 has been entered. Claims 6-9 and 11 are pending.
2. Claims 6-9 and 11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

A. The newly presented claims 6-9 recite "mixing the urethane prepolymer (A) with a isocyanurate containing a nonionic polar group". The originally presented claims required this component to be a polyisocyanate, e.g. to have more than 1 NCO group. Claim 11 recites similar language with the same issue. The newly presented claims read on this component having no isocyanate groups or 1 or less NCO groups on average, i.e. non-poly-isocyanates. This new scope of the claims is not supported in the originally filed specification and is therefore new matter.

B. There is not support in the originally filed specification for the new claim language "wherein the glycol containing a carboxyl group (a3) has a number average molecular weight of 162.18 or lower. Section [0030] is noted but does not contain this language nor clearly show that the applicant had this scope as their invention at the time of filing.

3. Claims 6-9 and 11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph, set forth in this Office action.

The prior art considered does not teach the instantly claimed invention nor provide rationale to modify the processes of the prior art into the instantly claimed methods.

Art Unit: 1796

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick D. Niland whose telephone number is 571-272-1121. The examiner can normally be reached on Monday to Thursday from 10 to 5.
